PROFESSIONAL SUMMARY

I am a Computer Science and Engineering graduate with experiences in full-stack web and mobile application development. Proficient in React.js, Node.js, Express.js, Flutter, and modern databases, with hands-on experience building scalable applications featuring real-time communication, RESTful APIs, and AI integration using the CLIP model. Experienced with Docker and modern development workflows. Seeking a Software Engineer or Full-Stack Developer role to contribute to impactful and scalable software solutions.

PROFESSIONAL EXPERIENCE

Full-Stack Engineer (Internship) | [Spectrum Software and Consulting \(Pvt.\) Ltd.](#)

April 2026 – Present

Kawran Bazar, Dhaka, Bangladesh

- Working with Node.js, Express.js, PostgreSQL, React.js, and Docker in project-based learning environments

Full-Stack Developer (Freelance) | [Butterfly Lighthouse](#)

Aug 2024 – July 2025

Dhaka, Bangladesh

- Delivered **3 full-stack client applications** for counselling, matrimonial services and course platform
- Converted Figma design into React.js code, Built **RESTful APIs** using Node.js and Express.js with MySQL
- Designed and developed **admin dashboards** for managing users, bookings, and content
- Implemented **real-time features** (chat, notifications) using Socket.io and Integrated **payment system**
- Collaborated with non-technical stakeholders to translate business requirements into features

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, PHP, C

Frontend Development: React.js, Next.js, Redux, Redux Toolkit, HTML5, CSS3, Tailwind CSS, Framer Motion

Backend Development: Node.js, Express.js, RESTful APIs, Zod, Socket.io, JWT Authentication

Databases: MySQL, PostgreSQL, MongoDB

Mobile App Development (Optional): Flutter (Basic), Firebase SDK, Provider, Android deployment

AI/ML: CLIP model integration, Gemini API, OpenAI API

DevOps & Tools: Docker, Git, GitHub, VS Code, npm, Vite

PROJECTS

Finditbd – AI-Powered Lost and Found Platform

[Live Link](#) | [Github](#)

Thesis project | React.js, Redux, Node.js, Express.js, MongoDB, Python (CLIP), Docker

- Developed intelligent web platform for reporting and recovering lost items with AI-based matching using CLIP (Contrastive Language-Image Pre-training) model
- Implemented automated claim verification system and notifications using firebase FCM
- Built comprehensive chat system for user-to-user communication using Socket.io
- Architected RESTful APIs with Express.js and MongoDB for scalable data management
- Integrated Redux for centralized state management across the React.js frontend with Vite build tool

Butterfly Matrimonial Platform

[Live Link](#) | [Github](#)

Client Project | *React.js, Node.js, Express.js, MySQL, Socket.io* | Contribution: 60%

- Developed full-stack matrimonial platform with dual dashboards for users and administrators
- Converted Figma design into React.js code
- Implemented real-time user-to-user chat functionality using Socket.io for instant messaging
- Built profile management system with photo uploads, bio editing, and preference settings
- Designed admin controls for user verification, content moderation, and platform analytics with MySQL.

Huraira Consultancy Booking Platform

[Live Link](#) | [Github](#)

Client Project | *React.js, Node.js, Express.js, MySQL* | Contribution: 70%

- Converted Figma design into React.js code and implemented full-stack booking platform with separate dashboards
- Built real-time appointment scheduling system with calendar integration and conflict detection
- Integrated payment processing system for consultation fee handling
- Developed consultant management system with availability tracking and appointment history MySQL

PSTU CPL Live Scoring Mobile App

[Github](#)

Flutter, Node.js, Express.js, Socket.io, React.js

- Built cross-platform mobile application for real-time cricket match updates and live scoring for CSE faculty.
- Implemented WebSocket connection for instant score synchronization across all devices
- Created match scheduling system with tournament bracket visualization using Flutter widgets

EDUCATION

B.Sc. (Engg) in Computer Science and Engineering

Passing year : Jan 2026

Patuakhali Science and Technology University, Patuakhali | CGPA: 3.11

- **Relevant Coursework:** Data Structures & Algorithms, Database Management Systems, Software Engineering, Web Technologies, Machine Learning, Computer Networks, Microprocessor

CERTIFICATIONS & TRAINING

Mobile Application Development

Mar 2024 – Apr 2024

Enhancing Digital Government & Economy Project, ICT Division | [Certificate](#)

Web Design and Development (LEDP)

Feb 2020 – Mar 2020

Learning and Earning Development Project, ICT Division | [Certificate](#)

LANGUAGES

Bengali: Native | **English:** Fluent (Conversational)
